6) AUTHORIZED ORGANIZATIONS

A non-profit organization can already be part of the WM-MW network or just enrolled. That does not automatically give it the authorized organization status to hold raffles.

To get that status, an organization has to make a request by email sent to : raffle@wm-mw.org .

We'll then authorize the organization to file a request from its Disco, filling-in an online form, including a digitalized copy of its Patent Letters or Chart, its financial target, its number of volunteers, etc.

When authorized, our on line systems international team needs a minimum of 48 hours to set up and activate the organization's official raffles site.

We'll not authorize more than 6 organizations to start, until we are ready to launch our official version.

We recommend to organizations to guaranty a minimum initial "Chase the Ace" jackpot of \$2 000\$€ USD-CAD-EUR or CFA 1 000 000, in order to motivate customers to buy at maximum, maximizing revenues for all.

7) Local raffles will be held each week, on the day and time selected by the authorized organization of your town, city, district, area, state, province or department.

MEGA raffles of **4 winners** will be held monthly, at national level, as soon there will be a minimum of 6 participating authorized organizations, for \$78\$€ USD-CAD-EUR, or CFA 39 000, and \$195\$€ USD-CAD-EUR or CFA 97 500, or more, annual subscribers only, one month after the official launch date in that country. On the last month, there will be raffles until the Ace is selected.

GIGA raffles of **13 winners** will be held quarterly, at continental level, as soon there will be a minimum of 6 participating countries on that continent, for \$390\$€ USD-CAD-EUR, or CFA 195 000, or more, annual subscribers only, 3 months after the official launch date on that continent. On the last quarter, there will be raffles until the Ace is selected.

TERA raffles, **up to 52 winners**, will be held annually, at worldwide level, as soon as the 6 continents will participate, for \$780\$€ USD-CAD-EUR annual subscribers only, 1 year after the official worldwide launch date. There will be raffles until the Ace is selected.

MEGA yearly subscribers will participate to their local raffles and MEGA raffles of their country, still paying less for their tickets.

GIGA yearly subscribers will participate to their local raffles, MEGA raffles of their country and GIGA raffles of their continent, still paying less for their tickets.

TERA yearly subscribers will participate to their local raffles, MEGA raffles of their country, GIGA raffles of their continent and TERA worldwide raffles, still paying a lot less for their tickets.

Ticket holder does not have to be physically or electronically present for the weekly, monthly MEGA, quarterly GIGA and yearly TERA raffles. If the ticket holder cannot be present, he can delegate a representative to pick his card on his behalf. Normally, it will be the event Coordinator or somebody else named by him. When buying online, the customer can also indicate the number of the card or the envelope to be picked up by his representative, on the table or on the wall.

8) Together International Foundation and its affiliated participating organizations reserve their right to postpone the raffles to the next day, if the selected day is a public holiday, if meteorological conditions are no good or for any other good reason, or to any other appropriate day.

9) REVENUES SHARING

Net revenues from tickets sales will be shared 50-50 between the authorized organization and its winners.

50% to the winners

1/3 of that 50% = Consolation prize for the weekly winner of each organization

1/3 of that 50% = For the progressive weekly jackpot, if the Ace of Spades (Ace of Hearts for France and its territories) is not picked.

1/3 of that 50% = For the MGT progressive jackpots controlled by the Together International Foundation, the Sovereign Akwesasne Government and their National, Continental and International Coordinators.

50% to organizations

All amounts will be paid the following day, at the latest, to winners, by authorized organizations.

10) All electronic MEGA, GIGA and TERA raffle tickets, including the ones sold by authorized organizations, having chosen our electronic option, will be mixed electronically. Otherwise, they could be mixed manually in a traditional raffle barrel or box, for the authorized organizations having chosen the mechanical option.

The coordinator for each authorized organization will appoint somebody for a one-ticket computer-selected raffle or manual drawing, for local weekly raffles only.

Winning ticket holder will pick only one card in the pack of cards, containing the « Ace of Spades », showed before and after the raffle.

11) CONSOLATION PRIZES SPLIT

If the weekly winner chooses another card than the « Ace of Spades », he will automatically get 1/3 of the 50% of the week net sales, reserved for winners. If the winner selects the « Ace of Spades », he will win the total progressive jackpot since the beginning of the raffles by an authorized organization.

If one of the monthly, quarterly or yearly winners chooses the Ace of Spades, he will win half of the MEGA progressive jackpot of his country, half of the GIGA progressive jackpot of his continent or half of the TERA worldwide progressive jackpot, since the inception of the MEGA, GIGA and TERA raffles. The other half will be reserved, as consolation prizes of equal value, to winners having not selected the Ace of Spades, during MEGA, GIGA and TERA raffles, from 4, 13 or up to 51 winners.

12) GAME CARDS

Cards will be mixed, sufficiently brewed and displayed on the table, faces down. When it's time for a card to be picked by the winner of the week, the winner or his representative puts ONE finger on his selected card. Coordinator will remove all cards around when the winner keeps his finger on his selected card.

When all cards removed, the selected card is turned face up by the coordinator.

If the winner is not on the premises, he can indicate to the coordinator the number of the card or envelope he wants to be picked up, from the deck. As an example, 5nd, 27nd, 41nd, etc.

The coordinator will then count the cards one by one until he reaches the chosen card that he will show on the camera.

The coordinator could also use a board showing numbers 1 to 52 with face down cards. The buyer can also select his card number at time of purchase.

The winner could, also, have indicated the card or envelope number, containing one card each, at time of purchase.

13) If the « Ace of Spades » is selected by the winning ticket holder, he gets the progressive jackpot.

If not, the jackpot amount is reported to the next week or month raffle.

All details of the selected card are registered and the card is cut in half.

The discarded cards are kept separately and a proper list of all removed and remaining cards is kept for checking by any interested person

14) Cards will be displayed in a way showing that the « Ace of Spades » is inside the card deck*. (*This has to be done before and after the winning ticket holder selects his card).

15) All tickets will be electronically destroyed after each raffle, save tickets bought by subscribers, who will always keep the same numbers but will have their date changed each week by our systems.

Card deck will be kept locked in a secure area.

16) Online raffles will be held each week, month, quarter or year, on FaceBook Live, after an interview and a show featuring one or more of our independent WebMusic-MusiqueWeb songwriters-composers or painters, including their songs and clips.
